THE X6
PRICE LIST JUNE 2020

BMW EFFICIENTDYNAMICS.
LESS EMISSIONS. MORE DRIVING PLEASURE.
THE BMW X6: A NEW STAR IS BORN.

A decade ago, BMW took the innovative step of marrying the attributes of a Sports Activity Vehicle with the DNA of a classic coupé. Out of that union was born the BMW X6 - the first ever Sports Activity Coupé.

Today, with close on 450 000 units of the first two generations having been sold, we proudly announce the birth of the third generation BMW X6.

With an interplay of advanced powertrain and chassis technology coupled with new-age technologies, a new level of sporting - yet highly sophisticated - on and off-road driving pleasure has entered the South African market, and true to its trail-blazing nature, the new BMW X6 is available for the first time with standard illuminated kidney grille – BMW kidney ‘Iconic Glow’.

The interior is tailored to deliver an exclusive driving experience, enhanced by mood-setting ambient lighting, Vernasca leather upholstery and electrically adjustable sports seats. The BMW Live Cockpit Professional includes a high-resolution instrument cluster behind the steering wheel with a screen diagonal of 12.3 inches and an adaptive navigation system and a hard-drive-based multimedia system with 20 GB of storage to match.

Together with a raised seating position, the car’s driver-oriented approach facilitates the ability to deal with unexpected events with consummate ease and control.

Initially, the X6 will be available in three variants; the BMW xDrive40i with optional M Sport and xOffroad packages, and the BMW M50i and M50d models. Enough to make even the most discerning drivers spoilt for choice.

BMW EFFICIENT DYNAMICS

EfficientDynamics is BMW’s award-winning programme of technologies designed to reduce CO2 emissions and improve fuel economy, without compromising on performance or driving dynamics. These technologies are standard on every new BMW and could lower your fuel and tax costs, as well as offering additional benefits for those on company car plans.

Find out more about the benefits of BMW EfficientDynamics, as well as compare your own vehicle against the BMW X6 by clicking here.

HIGHLIGHTS.

EXTERIOR

Lighting the way with innovation.

From the front, the new BMW X6's large, single-frame BMW kidney grille is undoubtedly its most striking feature. And now, available for the first time, the illuminated BMW kidney 'Iconic Glow', a unique design element that lends further lustre to the already head-turning appearance of the vehicle.

The characteristic twin LED headlights extend up to the BMW kidney grille and emphasise the car's presence and width. If the optional BMW Laserlight with standard Adaptive LED headlights is specified, a BMW Laserlight spotlight with Selective Beam optimises the non-dazzling high beam function with an increased range of around 500 metres.

The flanks are defined by familiar BMW proportions, a crisply drawn character line and a dynamic roofline. Light-alloy wheels up to 22 inches in size can be found within the subtly hexagon-shaped wheel arches. The Air Breathers in body colour combine with the striking wheel arches to highlight the exterior's dynamic looks.

The rear of the new BMW X6 also has an extremely athletic silhouette with powerful shoulders, further accentuated by the wide L-shaped LED rear lights, while the tailgate is integrated seamlessly and therefore almost invisibly into the car's horizontal lines.

Two enhancement packages available for the BMW X6 xDrive40i.

Besides an M Sport package that includes BMW Individual high-gloss Shadow Line, M seat belts, anthracite roof lining, an aerodynamic kit, M leather steering wheel, M sports brakes, M Sport exhaust system, adaptive M suspension, an M-specific radio remote key and more, the new BMW X6 xDrive40i is also offered with an xOffroad package as an option.

Identified by its rugged under-guard elements at the front end, the xOffroad package includes two-axle air suspension and an electronically controlled rear differential lock. The driver can choose from four modes specialising in driving over snow, sand, gravel or rocks respectively. At the press of a button, drivers can activate the ideal settings for the vehicle's ride height, the xDrive system, the transmission control and the DSC system's corrective inputs. Accelerator response also adapts to the driving mode selected.

INTERIOR

High and handsome for added safety and comfort.

Featuring an elevated seating position for both driver and passengers, the design of the BMW X6 cockpit gives a clear and uninterrupted view of all tasks, enabling drivers to deal with any eventualities with consummate ease and safety.

The new arrangement of the control elements embodies a progressive re-interpretation of the driver focus and passenger comfort for which BMW has become renowned. With 6 selectable mood-setting ambient lighting configurations, an LED soft-light for the centre console and a Welcome Light Carpet to set the scene, the interior boasts carefully selected materials and unbeatable build quality. It comes standard with Vernasca leather upholstery, while extended BMW Individual Merino leather trim is an option.

Up front, the sports seats are electrically adjustable and heated (heated seats only for M50i and M50d). Comfort seats with a choice of features such as ventilation and massage function for the driver and front passenger, can be optionally specified.

The BMW Live Cockpit Professional with BMW Operating System 7.0 offers fully digital displays and is geared even more closely to the driver’s personal needs. Depending on the situation, they can choose from the familiar iDrive Controller, the steering wheel controls, the Control Display’s touch control, voice control or BMW gesture control.

An extensive selection of standard and optional driver assistance systems pronounce the new BMW X6 as an exceptionally innovative Sports Activity Coupe. With the addition of myriad new functions, the systems ease the driver’s workload in monotonous driving conditions, such as congestion, slow traffic and long road trips. They also provide the driver with effective assistance in complex driving situations in urban areas, minimising the risk of accident.

Standard specification includes active Park Distance Control (PDC), Parking Assist and reversing assistant which automatically execute the necessary steering inputs, acceleration, braking and gear changes necessary to get the vehicle into and out of tight spots without the driver having to do a thing.

Finally, the new BMW X6 offers a high degree of adaptability and space: the 40:20:40 split rear seat backrests can be folded down to increase boot capacity to a sizeable 1 530 litres, big enough for any adventure.
SAFETY AND TECHNOLOGY

- Airbags, front for driver and front passenger with seat occupancy detection, head airbags and side airbags
- Alarm system including sirens with emergency power supply
- Antilock Braking System (ABS)
- Automatic door locking when driving away
- Bumper system with replaceable deformation elements at front and rear for impacts up to 15 km/h
- Crash sensor, controls activation of the airbags, hazard warning flashers, interior lights, unlocking of the doors, activation of the safety battery terminal clamp and deactivation of the fuel pump in the event of a crash
- Comfort access system. Keyless access to the vehicle including contactless opening and closing of the tailgate including handle-area lighting in the outside door handles
- Door-integrated side impact protection
- Dynamic Brake Lights (flushing under emergency braking)
- Dynamic Stability Control (DSC)
- Dynamic Traction Control (DTC), switchable function of Dynamic Stability Control (DSC) for improved traction
- Follow-me-home function (headlights stay on for set period after locking)
- Attentive Assist
- Parking Assistant including rear-view camera, PDC front and rear and new Reversing Assistant for xDrive models
- Parking Assistant including Surround View system and Remote View 3D (for M50i and M50d)
- Tyre pressure monitoring, sensors on all four wheels facilitate on exact and individual monitoring of the pressure in each individual tyre, including 3-stage toe and image warning
- Emergency spare wheel. Stored under the luggage compartment floor including tools
- Runflat tyres (not available with 22" wheels)
- Warning triangle and first aid kit

INTERIOR EQUIPMENT

- Sports leather steering wheel (Not for M50i and M50d)
- Lockable glove compartment with interior lighting
- 2.5-zone automatic air conditioning with common temperature control for rear passengers
- Closing system with central locking including one remote control with integrated emergency key, Convenience opening and closing of the windows, Panoramic glass roof and as well as folding the exterior mirrors is possible
- Cruise Control with brake function
- BMW Display Key with Touch control
- LCD colour display for vehicle status information
- Speed Limiter. Enables top speed to be limited to suit individual preference. It can be overridden whenever necessary
- Ambient lighting with ambiance lighting designs. LED light for light centre console (waterfall lighting). Comprises of 6 pre-defined selectable light designs in various colours with contour and mood lighting. Includes the Welcome Light Carpet that projects on ambient light design onto the left and right entering and exiting area. Dynamic function of contour lighting for 4 applications: Welcome, Goodbye, Open door and Phone Call
- Electric front and rear driver and front passenger (incl. memory for driver’s seat)
- Sport seats for driver and front passenger including electrical backrest width adjustment
- Interior trim finishers Aluminium ‘Mesheffect’ dark
- Keyless engine start
- Multi-function for steering wheel, for audio, cruise control and telephone functions
- Parking brake, electromechanical operation with actuation switch on centre console
- Heated and cooled cupholders in the front centre console. Can be activated individually by buttons. Heating function visualized by red light indicator; cooling function visualized by red light indicator
- Telephony with wireless charging. Smartphone holder at the front, in front of the cupholders with inductive/wireless charging according to Qi standard for suitable mobile phones. Wireless charging includes LED Charge level indicator, forgotten mobile phone reminder alert and connection to the external aerial possible. For ensuring the charging function and external aerial connection, the smartphone must be positioned with its back to the charging surface. For selected smartphones without an inductive charging function according to Qi standard (e.g. Apple iPhone 5, 5s, 6 & 6s), special charging cases are available via BMW Parts and Accessories (for information on compatible devices, see www.bmw.de/bttech)
- BMW Live Cockpit Professional. Display cluster consisting of a fully digital 12.3” instrument display and a high-resolution 12.3” Control display this includes BMW Operating System 7 with variable, configurable widgets that display information in real time, Navigation system, hard drive supported system with 230GB memory. The intuitive operation options include Voice Control, direct-selection buttons, Drive controller, touch operation and Gesture control
- Connected Package Professional. Includes Remote Services, Concierge Services, Real-Time Traffic Information (RTTI) and Preparation for Apple CarPlay
- On-board computer, informs about average speed, average consumption, range, outside temperature, time and date
- Intelligent emergency calling, teleservices service with manual emergency calling via SOS button and automatic emergency calling in case of an accident. Transmitted data to the BMW Call Centre and information like vehicle location, severity of accident and status of the front airbags and seat belts (Manual and Automatic Emergency Call - without data transmission - supported in Namibia, Botswana and Swaziland)
- TeleServices, Telematics service for both automatic and manual service needs and for initiation of breakdown assistance (BMW Teleservice Call, BMW Teleservice Breakdown Call and BMW Teleservice Battery Guard). Depending on the situation, service information is transmitted on an as-needed basis to the customer’s preferred BMW Dealership (TeleServices only supported in South Africa)
- ConnectedDrive Services, provides the services and functionalities of BMW Online and BMW Apps. BMW Online: in-car online portal that offers news, weather forecasts, online-search and Office functions. BMW Apps: permits the integration of certain smartphone applications (Apple and Android devices) such as the free BMW Connected App. This enables access to functions such as Twitter, Facebook, news and web radio via the Drive system and Control Display (BMW ConnectedDrive Services only supported in South Africa)

MODEL RANGE.

Initially the vehicle will be available in three variants, the BMW X6 xDrive40i, M50i and M50d. The xDrive40i is powered by a 3-litre TwinPower Turbo inline 6-cylinder motor with 250 kW and 450Nm. The M50i is a 4.4-litre V8 turbocharged petrol motor with 390 kW and 750 Nm, while the diesel-powered M50d packs 294 kW and 760 Nm. Power goes to an xDrive all-wheel-drive setup via an 8-speed automatic gearbox.

STANDARD MODEL HIGHLIGHTS

- One-piece front ornamental BMW kidney grille frame in high-gloss Chrome, grille struts in Pearl Chrome, adaptive air flap control in black high-gloss
- 19” light alloy wheels V-spoke style 735; other wheels available
- Side window graphic in satinised aluminium
- Exterior and central air inlets in front bumper in black high-gloss with embellishers in Pearl Chrome
- Specific grilles in the front lateral air inlets in black high-gloss
- Side slots trim with trim strip in black grained
- Sump guard front and rear in black grained
- Exhaust tailpipes with chrome finishers, left and right with diamond-shaped three dimensional look
- Adaptive LED headlights
- Black ‘Vernasca’ leather with contrast stitching in Brown, other leather upholsteries available
- Sport seats for driver and front passenger including electrical seat adjustments with memory for driver
- Sport leather steering wheel
- BMW Live Cockpit Professional with 12.3” instrument cluster, 12.3” Control Display and Gesture Control
- Automatic air conditioning with 2.5 zones
- Door sill strips with ‘BMW’ designation front and rear, illuminated
- Car key with chrome clasp
- Instrument panel in Sensatec

M PERFORMANCE HIGHLIGHTS

- M Aerodynamics package with front apron, side skirts and wheel arch trims in body colour
- Optional 27” M light alloy wheels Y-spoke style 741 M BiCoLOUR Orbit Grey with mixed tyres, burnished; other wheels available
- M Performance package: 22” light alloy wheels V-spoke style 747 M Cerium Grey matt with mixed tyres, burnished
- Adaptive M suspension
- M Sport Differential
- M Performance specific calibration of the suspension
- M Sport exhaust system
- BMW Individual high-gloss Shadow Line, alternatively BMW Individual Exterior Line Aluminium satinsised
- M designation on the front side panels in Cerium Grey
- M Sport brake with blue painted brake callipers with M designation
- Exterior features in Cerium Grey: Exterior mirror housing, front kidney-grille, air intet inserts and air breather
- Rear apron with diffuser insert
- Wheel trim finishers in M Sport package-specific geometry in Cerium Grey
- M50i/M50d model designation on the rear in Cerium Grey
- Black ‘Vernasca’ leather with contrast stitching in Brown, other leather upholsteries available
- M50i/M50d door sill finishers, illuminated and M-specific pedals
- M Leather steering wheel
- Anthracite roof lining
- Interior trim finishers in Aluminium Tetragon, other trims available
- Instrument cluster with M-specific display in Sport and Sport+ mode
- M Sport package specific key

BMW X6 xDrive40i M Sport in Riverside Blue with optional 22” M light-alloy wheels double spoke 742 M

BMW X6 M50i in Manhattan metallic with 22” light-alloy wheels V-spoke 747 M
M SPORT PACKAGE.

Applicable to the BMW X6 xDrive40i model. Recommended Retail Price: ZAR58 900.

THE BMW CONNECTED APP.

Your personal mobility assistant.

The BMW Connected App learns your mobility routines, reads your calendar and knows when you need to leave, providing you with a personal experience that is integrated into your everyday life. The App will allow you to fully unleash the capabilities of BMW’s innovative technologies intuitively through your smartphone.

LEARNED DESTINATIONS

BMW Connected learns your most frequently travelled routes and provides them as ‘learned destinations’ for future suggestions. If destinations are repeatedly visited, they are automatically listed at the usual time.

REMOTE SERVICES

Stay in touch with your BMW wherever you are. You can perform online searches powered by Google™, find your vehicle location and lock and unlock your doors. 1, 2, 3

ESTIMATED TIME OF ARRIVAL

Never be late again with detailed updates of your regular routes and alternative options so you can manage your journey and avoid delays.

TIME TO LEAVE

A notification on your Apple iPhone, compatible Android phone, your Apple Watch or Samsung Gear S3 watch will let you know when to leave and allow you to reach your destination on time.

For more information, go to www.bmw.co.za/en/topics/fascination-bmw/connected-drive/overview.html

Key

1 = Requires a free BMW ConnectedDrive account. 2 = Available and active for the lifetime of the vehicle. 3 = GPS Tracking in iDrive Settings menu must be activated.

Not all features are available on all models. 4 = Acts for 3 years, renewable thereafter.

BMW CONNECTED DRIVE.*

In touch with your world.

The BMW ConnectedDrive Services & Apps are on hand to make sure you have more time for the important things in life. Various innovations by BMW make things more convenient for you every day - whenever you want.

REAL TIME TRAFFIC INFORMATION (RTTI)

Provides a precise account of current traffic in real time. The information is presented on the Navigation map using colourful visualisations.

CONCIERGE SERVICES

A personal telematic call service that connects you to a BMW operator, who will be able to quickly access the information you need 7 days a week, 24 hours a day. 1

BMW CONNECTED+

Provides a more extensive level of integration of the BMW Connected App in your BMW. You can enjoy seamless connectivity between all BMWs and thus benefit from the personalised services supported by the BMW Option Mobility Cloud.

EMERGENCY CALL

Standard for every new BMW. With either the manual or the automatic emergency call, details of your vehicle and location will be sent directly to an Emergency Service Centre. 2

BMW TELESERVICES

Provides automatic reminders about service and maintenance appointments. Featuring a collection of intuitive technologies, and making your life as a BMW owner easier than ever. 2

BMW ONLINE SERVICES

Forms the basis for intelligent BMW ConnectedDrive functions, as well as the integration of smartphone apps. Get up-to-the-minute information while on the road via the built-in vehicle SIM. 1, 4
The BMW ConnectedDrive basic services “TeleServices” (6AE) and “Intelligent Assistance” (6AN) are available for all BMWi vehicles. In the case of BMW vehicles, the basic services will include “RemoteServices”.

a. TeleServices (SA6AG)

The Service “TeleServices” is aimed at maintaining the customer's mobility. Technical faults or urgent destinations can be reported to the responsible service provider. For assistance to the responsible emergency call control centre. The user's request as well as the necessary data will be transmitted to service providers commissioned by BMW for this purpose. If the condition of the vehicle as well as transmission of the information necessary to provide assistance to the responsible emergency call control centre. In the case of a service requirement, these data, together with the name of the customer as stored within theBMW ConnectedDrive customer portal, will be forwarded to the responsible customer service partner. BMW Roadside Assistance or appropriate service provider for the purpose of establishing contact or arranging an appointment. These data are recorded until the vehicle is turned off.

b. For BMW vehicles only: a. TeleServices (SA6AE)

The TeleServices (SA6AE) service continuously monitors the battery-charging status of the vehicle. If the battery-charging status falls below a defined level, information about the critical battery-charging status will be transmitted to the responsible BMW customer service partner. If the customer has requested this function, BMW will notify her/him by sending an email message when the battery-charging status falls below a defined level. This data is used to display the geographic vehicle position, the car identification and localization during the call in the ConnectedDrive customer portal.

c. Intelligent Emergency Call

When an accident occurs or assistance is needed (e.g., vehicle breakdown, front seat belt tension, etc.), the Service “Emergency Call” triggers an emergency call to the responsible emergency service operator (fire brigade, police, etc.) at the local of court of Munich under 112 (German emergency number). If mentioned hereinafter referred to as “BMW”) provides services that may require personal data to be collected, stored or processed. Services refer to various functions (hereinafter referred to as “Services”) under the name of “BMW ConnectedDrive” (BMW Call, BMW Assist, Services, Data Privacy). This includes the processing of personal data to provide assistance to the responsible emergency call control centre. The user’s request as well as the necessary data will be transmitted to service providers commissioned by BMW to perform the Services and will be used by this service provider exclusively for providing the respective Service and stored until the operations have been properly completed. The data shall then be deleted. Beyond this, no data shall be transferred to third parties. Verification of this national service is not within the scope of this document. In the event of a technical fault, in addition to the current position of the vehicle, information as well as information about the charging status and charging performance index which is displayed in the BMW ConnectedDrive App and in the ConnectedDrive customer portal.

3. ConnectedDrive Services

a. ConnectedDrive Services

The “Concierge Services” (SA6AP), in the case of BMWi vehicles) at any time at an authorised BMW dealer or through an online tool on theBMW ConnectedDrive Customer Portal (“My BMW ConnectedDrive”), although the necessary information is collected to create anonymous usage statistics about the respective Service and used for traffic information and therefore forwarded to a service provider. No additional transfer of the data to third parties takes place.

b. Send To Car

The Service “Send to Car” provides the option of nonmember complete address, data of new stock or PC to the BMW ConnectedDrive. This case take place either before or during the journey. Additional data can be transferred to the telephone directory or to the navigation system as a destination.

The Service “Send to Car” is supplemented by the “Send To Car” functions. Addresses can be found on Google Maps or on the Internet and then directly to the vehicle. The customer can select one or more contacts from the customer's address book for the “Send To Car” feature. Addresses are transmitted to the vehicle and can be stored in the telephone directory or in the navigation system as a destination or to the mobile telephone. The customer from the customer portal or the mobile telephone can send the address data via mobile telephone connected with the vehicle to the driver. This also applies to the Service “HRS Send to Car”, which enables the address data record for a hotel room booked with the Hotel Reservation System International (HRS) to be sent to the vehicle. Both address and telephone number can then be called up in the vehicle under the given name, address and telephone number of the customer. The service “Send to Car” can be used via the mobile telephone connected with the vehicle. The vehicle shall be able to send location information and certain completely anonymous environment-related information is used for traffic information and therefore forwarded to a service provider. No additional transfer of the data to third parties takes place.

9. Availability of the service

The service is exclusively available in Germany, Austria, Italy, Spain, the Netherlands, the United Kingdom, Ireland, Spain, South Africa, Argentina, Portugal, Switzerland, France, Sweden, Belgium, Denmark, Norway, Czech Republic, Poland, Turkey and Russia. “V-Info+” is entirely dependent on any updates which may be published by the developer of the respective application. An update of the application is therefore required in the respective case.

10. Deactivation

The customer can deactivate the BMW ConnectedDrive basic services “TeleServices” (6AE) and “Intelligent Assistance” (6AN) at any time at an authorised BMW dealer or through an online tool on theBMW ConnectedDrive Customer Portal (“My BMW ConnectedDrive”), although the necessary information is collected to create anonymous usage statistics about the respective Service and used for traffic information and therefore forwarded to a service provider. No additional transfer of the data to third parties takes place.

For further information on BMW ConnectedDrive and the General Terms and Conditions of Business and Use for Connected Drive, please visit www.bmw-connecteddrive.co.za.

e. 7dines Services

a. The service “7dines Services” comprises functions that are displayed to the user with the BMW i connected drive. The functions are accessed via the infotainment system or through the BMW Car IT Control for each charging stop, finish, interruption and error as well as for each power on the vehicle. The functions are available to the user at any time and for any purpose. In the case of the historical data stored in the GSP, BMW Online, BMW ConnectedDrive and App customer portal. The services, possible, possible new charging stations or charging stations can be identified.

b. “Efficiency” is a services which utilise vehicle condition information which is sent from the vehicle to BMW at any time. No additional information which allows the provision of services is stored. These data serve to calculate a driving performance index which is displayed in the BMW ConnectedDrive App and in the ConnectedDrive customer portal.

The driving performance index will be statistically processed with the index of other BMW drivers in the “Community” function displayed anomalously in the BMW ConnectedDrive App. The example of the display of “Community” is as follows: “X people from your country are driving the same vehicle as you, and are doing so in a manner similar to the way you are doing it.”

The Service “Route to the vehicle” and "vehicle position" uses vehicle condition information as well as information regarding the position of the vehicle, which are stored by BMW with every vehicle switch-off. These data serve to display the geographical vehicle position, which is displayed in the BMW ConnectedDrive App and in the ConnectedDrive customer portal.

b. “BMW Online”

The Service “BMW Online” is a mobile internet portal that provides various information. Information is used for traffic information and therefore forwarded to a service provider. The customer can query local information via the online search function. The addresses found by this function are included in the UK and Germany. In addition, the customer also has access to office functions with the Service “SA6AG” as an option. The high-level ” BMW Online” under normal circumstances is not available for up to two years. As a consequence of this inspection, it is not only possible for further car-related data to be collected, which may include customer data or information services or customer portals thereto be removed from the “BMW Online” portal.

Use of this Service requires identification of the vehicle and the processing of information needed for providing assistance. The data are subsequently deleted. When the Points of Interest are queried, the customer’s enquiry is transmitted, where appropriate, to the service provider commissioned by BMW to perform the Services, where it is used exclusively for providing the respective Service and stored until the operations have been properly completed. The data are subsequently deleted. No additional transfer of the data to third parties takes place.

”BMW Connected Drive” allows seamless door-to-door navigation from the customer’s current position to the BMW vehicle and from the vehicle to the final destination also including walking times.

The “BMW Connected Drive” service provides a seamless seamless seamless service and therefore forwards to the BMW Car IT GmbH and in the ConnectedDrive customer portal.

“BMW Connected Drive” allows seamless door-to-door navigation from the customer’s current position to the BMW vehicle and from the vehicle to the final destination also including walking times.

The feature “My Destinations” gives easy access to all relevant destinations and navigation to all BMW Connected locations in out of and outside the BMW vehicle.

Details about the processing of personal data is in the course of the “BMW ConnectedDrive” and in the privacy policy of BMW Connected.

The “BMW ConnectedDrive” service provides a seamless seamless seamless service and therefore forwards to the BMW Car IT GmbH and in the ConnectedDrive customer portal.

BMW BENEFITS.

BMW Service Concept: always up to date. When you buy a BMW, you can look forward to superb service and comprehensive customer care, with over 300 BMW Service Dealerships in more than 150 countries ready to assist you at any time. Thanks to the vehicle’s integrated on-board diagnostics system, you will always know exactly when the next service is due, and what work will be required. Condition-Based Service measures the condition of key parts subject to wear, tracks fluid levels and monitors your BMW’s time- and mileage dependent service requirements. Then simply get in touch with your BMW Dealership, who will provide expert care for you and your car. Staffed by highly trained personnel, your BMW Dealership is also equipped with the latest computer-aided information and diagnostic tools. Important data such as your chassis number, mileage and current service requirements are also stored on your car key, ensuring a quick assessment of your car’s status. Meaning that staff have more time to assist you. And naturally, your BMW Service Dealership will have Original BMW Parts available for any work to be done. In short - quality and safety are at the heart of BMW Service.

BMW Motorplan. All new BMWs sold in South Africa include a 5 year/100 000 km Motorplan maintenance contract. This covers all service, maintenance and repairs resulting from normal wear and tear, excluding tyres and fuel. As with any maintenance agreement, there are certain exceptions which are clearly specified in the Motorplan agreement. Repairs resulting from negligence or accident damage are not covered. For all BMW models the contract distance can be extended up to 200 000 km, dependent on individual needs.

BMW On Call. In the event of a breakdown, BMW On Call is available 24 hours a day, 365 days a year at 0800 600 777. Specifically trained BMW technicians will do everything necessary to get your BMW back on the road, with telephone or on-site assistance as required. Car rental and/or towing of your car can be arranged if necessary.

BMW Accident Management. BMW Accident Management provides a managed response to an accidental vehicle immobilisation. The service includes using the BMW Approved Repair Centre network and overall coordination by the BMW Customer Service Centre, who will select and approve the best service suppliers in the industry. Call 0800 600 555 for more information.

Original BMW Accessories and BMW Lifestyle Accessories. The comprehensive range of high quality Original BMW Accessories covers every aspect from the exterior to the interior and from mobile communication to transport and safety accessories. BMW Lifestyle Accessories mean that even when you’re not driving your BMW, you can still enjoy the unique fascination of the BMW experience with exclusive products from BMW Lifestyle. Your BMW Dealership will be able to assist you with a catalogue of accessories specially suited to your BMW model and you can explore the range of quality BMW Lifestyle products at the same time.

BMW Financial Services. There’s only one more thing you could wish for: the perfect financing solution. One that leaves enough scope for all your other wishes. BMW Financial Services offers tailor-made solutions in the areas of leasing, financing and insurance individually developed to suit you and your budget. Leasing through BMW Financial Services lets you realise your dream of driving an exceptional BMW. And you yourself can decide on deposit, duration and the extent of your monthly instalments. A wide range of financing plans from BMW Financial Services meets your every requirement. Your local BMW Dealership will assist you to put together your own individual plan. And if you opt for insurance from BMW Financial Services, you’ll be prepared for all eventualities. The comprehensive spectrum of options reflects the safety and quality you’d expect from BMW. For more information, go to www.bmwfinance.co.za or call us on 0861 269 346. Your BMW Dealership can also provide you with more details on BMW Financial Services.

Internet. Apart from the international website, www.bmw.com, BMW maintains websites in many countries around the world. Visit the South African website at www.bmw.co.za to find out more about options available and to locate dealerships in your vicinity.

BMW Owner’s Circle. The BMW Owner’s Circle website is a personalised customer website that offers BMW drivers the opportunity to interact with BMW within a secure web environment. Each BMW driver is already a member of this online community, and can activate their membership by registering at www.bmw.co.za/ownerscircle. The internet site offers information and functionality specifically relevant to their personal and vehicle profile. A member can:

• Update personal and vehicle information;
• Review Motorplan details and extend their contract;
• See the service history on their BMW and submit online service booking requests;
• Contact BMW via a priority email service;
• View their owner’s manual online;
• Track a vehicle that has been ordered as it passes through various production and distribution processes.

Register by visiting www.bmw.co.za/ownerscircle.

BMW Driving Experience. BMW Driving Experience is the only driver training programme which offers you the opportunity to expand your driving knowledge and learn to keep your vehicle superbly under control, in a variety of situations, using an exclusive BMW vehicle. You will have an expert companion at your side while you push your driving skills to their very limits in a wide range of driving situations. By passing on their expertise in practical driving situations, our highly skilled instructors will ensure that participants learn as much as possible in the time allotted, as well as having a memorably enjoyable time. Courses covered are:

• M Advanced
• M Drift
• M Intensive
• Safety Package
• Skid Control
• Efficient Driving

Upon purchase of any new BMW M vehicle, customers will receive a voucher for a complimentary M Advanced driving course.

For more information contact us on 0861 BMWDRIVE (269 374), email us at drivertraining@bmw.co.za or visit our website at: www.bmwdrivingexperience.co.za.
